

RIGHTSIZE. RIGHT SUPPORT.
RIGHT *for* **STUDENTS.**

October 6, 2026 Board Meeting

Purpose

Provide overview of the two proposed scenarios to stabilize enrollment and provide sustainable, balanced programming for every student in Portland Public Schools.

Today we will:

- a** Describe how the scenarios were developed

- b** Explain the proposed changes in each of the scenarios

- c** Evaluate each of the scenarios on the Key Performance Indicators and compare impacts if there are no changes

- d** Provide an overview of the impacts on each school or program

Today's Discussion

- How could these changes strengthen students' learning experiences and access to programs? Where might they create challenges?
- Which proposed changes seem most aligned with our guiding principles? Which raise concerns, and why?

No decision is requested today.

Board Resolution No. 7296

“...to continue to ensure well-resourced, sustainable schools and equitable access to opportunities for all students across the District, be it resolved that in April 2026, the District will launch phase three of Growing Great Schools, focusing on the school and program rightsizing process.”

“The Board of Directors directs the Superintendent to launch the district-wide rightsizing process within the Growing Great Schools District-wide process to consider school and program consolidations, boundary adjustment, special program changes, and grade reconfigurations.”

Approved April 14, 2026

Grade Band	Average General Fund only Per Student
K-5	\$10,037.04
MS	\$9,280.79
HS	\$8,609.99
K-12 Overall	\$9,484.17

School	Formula \$ Per Student
Grant	\$8,010.06
Jefferson	\$13,638.41

Analysis Scope & Takeaway

- **What is included:** General Fund non-equity staffing formulas only (baseline staff all schools receive).
- **What is excluded:** Targeted special/equity funds (SPED, MLL, Title I, M98).
- **Economies of scale drive costs:** Elementary schools cost ~\$1,400 more per student than high schools due to smaller facility size.
- **Enrollment impact:** Fixed baseline positions spread over fewer students result in substantially higher per-pupil costs (e.g., Jefferson costs +70% more per student than Grant under the exact same staffing formula).

Grade Band	School	Projected Enrollment	Average Class Size	General Fund FTE	Student: FTE	\$ Per Pupil General Fund	Subsidy Received
K-5	Rosa Parks	161	23.0	13.0	12.4	\$12,869.57	\$545,049.34
K-5	Whitman	196	21.8	15.0	13.1	\$12,204.08	\$533,103.54
K-5	Creston	198	28.3	13.0	15.3	\$10,464.65	\$194,135.21
K-5	Rieke	255	23.2	17.2	14.9	\$10,760.78	\$325,537.77
K-5	Beach	286	22.0	20.0	14.3	\$11,160.84	\$479,528.64
K-5	Woodstock	351	23.4	22.2	15.8	\$10,096.87	\$215,057.88
K-5	Atkinson	358	23.9	22.0	16.3	\$9,810.06	\$116,668.72
K-5	Kelly	412	24.2	24.6	16.8	\$9,533.98	\$20,523.78
K-5	Ainsworth	554	25.2	32.0	17.3	\$9,227.44	-\$142,227.74
K-5	Richmond	505	28.1	26.0	19.5	\$8,221.78	-\$637,503.62

Based on the district K–12 baseline average of **\$9,484.17 per student**
 (General Fund core staffing formulas only; excludes targeted equity and grant funds).

Modeling Framework

Rightsizing

What does sustainable mean for my student or school?

When enrollment is above the a threshold it allows schools to increase consistency for students.

- Staff levels are more stable so students can work with staff over number of years to build strong academic relationships.
- Academic programs that reflect current industry trends have the chance to develop over time, such as robotics.

When we operate a portfolio of schools that is aligned with our student population:

- When we invest in a new heating and cooling system at a school serving more students, that investment improves daily learning conditions for more children.
- Facility maintenance resources go further. With fewer buildings to maintain, crews can address repairs more quickly and focus resources on keeping schools safe, comfortable, and in good condition.

Applying Criteria to Develop Scenarios

Guiding Question: How can we increase the number of school sites that operate in a sustainable enrollment range, so that students across our district can experience stable and adequately resourced programs while also using our buildings efficiently?

Definition Sustainable Enrollment Range: Minimum enrollment to offer stable programming.

Threshold: minimum enrollment

- Elementary threshold 360 students
- K8 and Middle School threshold 500 students
- High School threshold 1100 students

Functional capacity: A practical estimate of how many students a school site accommodates.

Applying Criteria to Develop Scenarios

- **Enrollment Trends & Capacity:** Evaluated projected enrollment patterns and capacity by grade band through 2031-32.
- **Facility & Capital Viability:** Assessed facility condition alongside enrollment to identify viability of site.
- **Programmatic & Grade-Band Optimization:** Examined K-8 to K-5/6-8 conversions and specialized programs during regional analyses to strengthen middle school cohorts and DLI pathways as well as feeder pattern alignment where possible.
- **Student & Operational Guardrails:** Capped receiving schools at no more than two per closure. Ensured students transition to higher-quality facilities.

Applying Criteria to Develop Scenarios

We gathered information and applied the criteria to improve the learning experiences for students within each region and across the system as a whole.

Assessing Solutions Based on Guiding Principles

Well-Resourced Schools

Students can get the support they need every day of the week.

This could include small group reading or math support.

Safe and Healthy Learning Environments

Students do not have travel on buses for hours each day.

Students have spaces at school where they can play and move safely.

Educational Options

The school close to where students live have athletic programs that connect to the high school.

There are also opportunities to choose smaller setting where a student can pursue an interest.

PPS Equity Lens

Students and families who live in our historically underserved communities have access vibrant academics without having to leave their neighborhood.

What STAYED THE SAME

Number of Available Seats in:

- Kindergarten DLI Programs
- ACCESS Alternative Program
- Benson and da Vinci focus option schools

All 5 languages sustained in Dual Language Immersion (DLI) Programs

Schools or programs with specific entrance requirements (DART, Pioneer, Alliance)

Key Performance Indicators

Rightsizing

Key Performance Indicators

Physical Environment and Pathway Indicators

How well do our school spaces support academic programming and are they sustainable?

Classrooms are a comfortable temperature.

Balance and Impact

Who is impacted by these changes— are the effects distributed equitably across student groups?

If students have to go to a new school, they move with a group of classmates.

Opportunity and Stability

Do students have access to stable, comparable learning environments?

Students are able to build their skills in courses that are offered every year that prepare them for high school like Algebra or Spanish.

RIGHTSIZING

Comparing three scenarios

Portland Public Schools has more school buildings than our enrollment supports. This compares what the district would look like under each of three scenarios.

WHAT GUIDES THE WORK

Well-resourced schools

Consistent access to strong academic programming across PPS.

Safe and healthy learning environments

Facilities that support student safety, wellness, and long-term sustainability.

Educational options

A strong network of neighborhood schools balanced with educational options.

PPS equity lens

Centering students most impacted by inequities in every decision.

The three scenarios

All figures are projections for the 2031-32 school year unless noted.

SCENARIO A

Closures, program moves, and boundary changes bring about two thirds of schools up to a sustainable size. About 80% of students will attend a sustainable school.

SCENARIO B

A smaller set of the same moves brings more than half of schools up to a sustainable size. About 73% of students will attend a sustainable school.

STATUS QUO

No schools close and no boundaries change. Enrollment keeps declining, so more schools fall below the size needed to staff a full program. About 48% of students will attend a sustainable school.

District-wide, side by side

Measure	SCENARIO A	SCENARIO B	STATUS QUO
Schools or sites that would close	14	11	0
Students who would change schools	27%	24%	0%
Schools above the sustainability threshold	67%	57%	26%
Students attending a school above the threshold	80%	73%	48%
Students Experiencing Poverty in Sustainable Schools	81%	74%	42%
Historically Underserved Students in Sustainable Schools	83%	78%	46%
Students Receiving Special Education Services in Sustainable Schools	77%	69%	41%
Multilingual Learners in Sustainable Schools	87%	77%	44%
